

March 2026

Dear Sir/Madam,

I am pleased to provide this letter of recommendation for Sloan Louden-Robins, who was a student in my EE 4372 Communication Networks course at Texas State University.

During the course Sloan consistently distinguished herself as an excellent student. She demonstrated a strong passion for learning, actively participated in class discussions, and showed strong leadership in group assignments. Her presentations were clear, confident and well structured, reflecting both strong preparation and deep understanding of the course material.

One of Sloan's qualities is her ability to think strategically and was consistent in asking insightful questions about the 'why' behind course material, always connecting theory to real-world applications. Sloan engaged positively with her peers, and is an excellent communicator and team member

As she continues her studies, Sloan has further demonstrated leadership, initiative, and the confidence to take on additional assignments. I am confident that Sloan will be an asset to any organization she joins. I recommend Sloan without reservation as a great candidate for employment and fully support her abilities to make significant contributions to your company as an employee.

Please feel free to contact me if additional information would be helpful.

Sincerely,

Liam Quinn

Associate Professor of Practice
Texas State University
